USEFUL: 2 extremely, 1 moderately

District	Course	Edition	Standards	Useful	Comments
Madera	Biology	2000	Moderate	Extremely	None
Madera	Biology	2000	Moderate	Extremely	None
Madera	Biology/ Life Science	2004	Moderate	Moderately	I feel that this book only scratches the surface for a biology course. It is very limited in the area of dissecting and/or lab type work.
