Biology

STANDARDS: 3 in-depth, 1 moderate

USEFUL: 2 extremely, 2 moderately

District	Course	Edition	Standards	Useful	Comments
Brawley Union HS	Biology	8 th	Moderate	Moderately	I find myself having to jump around the text quite a bit, and this is confusing for students. Some concepts, esp. molecular biological ones, are not covered in adequate depth. We are looking for another textbook to replace this one; we find it difficult to use with the California biology standards.
Santa Cruz	Biology	9 th	In-Depth	Extremely	Great lab and support material
Whittier	Honors Biology	8 th 2001	In-Depth	Moderately	difficult reading level
Carlsbad	Honors Biology	1996	In-Depth	Extremely	I will get the same when it's time to order.
