*Life Science*

STANDARDS: 2 moderate

USEFUL: 1 extremely, 1 moderately

District	Course	Edition	Standards	Useful	Comments
Merced	Biology EL	3 <sup>rd</sup>	Moderate	Moderately	There is no GOOD EL text for Biology and the mainstream Biology book is at too high of a reading level and content level for our students. I would love to have something that was better, but this is all that's out there right now so I supplement like crazy.
Colusa	Life Science	4 <sup>th</sup>	Moderate	Extremely	Students pick up concepts easily, reading is at level, concepts laid out in a progressive manner.
