Publisher: McDougal Littell

World of Chemistry

STANDARDS: 3 in-depth, 2 moderate

USEFUL: 2 extremely, 2 moderately, 1 not

District	Course	Edition	Standards	Useful	Comments
SFUSU	Chemistry	2002	In-Depth	Extremely	None
SFUSD	Chemistry	2002	In-Depth	Extremely	Excellent except for Thermochemistry.
SFUSD	Chemistry	2003	In-Depth	Moderately	Good readability, diagrams and tables are easy to understand. Questions from test generator are too easy. Although the support material has good content, it is not very well designed for use by students. Good "thinking" questions but not user-friendly.
Gustine	Chemistry	2002	Moderate	Not	It's probably the worst Chemistry book I've used. It's organized in an odd manner, and the ancillaries are very limited.
Diocese of San Jose	Chemistry	2002	Moderate	Moderately	End of chapter questions are good. Illustrations/diagrams are well done, show and explain concepts well. Appendices are a bit lacking, would like them to be more in-depth.
