Biology: The Web of Life

STANDARDS: 1 in-depth, 2 moderate, 1 limited

USEFUL: 2 extremely, 2 moderately

District	Course	Edition	Standards	Useful	Comments
Los Angeles	Biology	2003	In-Depth	Extremely	The order of the chapters is confusing. I think there should be more on bioethics and current event topics that the students can relate to the subject.
Simi Valley	General Biology	2000	Moderate	Extremely	We are able to cover the standards using this text. However, it would be better to have the text designed to include the specific California content standards
Liberty	Integrated Biology	4 th , 5 th	Limited	Moderately	There are quite a few mistakes in this book, it is also not aligned to state standards.
Madera	Biology	2 nd	Moderate	Moderately	Almost nothing on populations genetics. Poor arrangement of genetics
